

Syllabus

General Information

Description

RxTechExam.com prepares students to pass the Pharmacy Technician Certification Board (PTCB) Exam and obtain the title of Nationally Certified Pharmacy Technician. Pharmacy Technicians work in a variety of environments, and this course acclimates the student to those settings and provides the necessary information for the student to be comfortable with the many roles and responsibilities that accompany a Pharmacy Technician position.

Expectations and Goals

RxTechExam's online course provides a guided study through the many learning objectives that are tested on the National Pharmacy Technician Exam given by the PTCB. The course is completely self-paced, so that learners with differing skill levels can achieve the same level of success. It's important that each module is reviewed thoroughly, so that the student will be exposed to all of the relevant information. After completing the course, you will be prepared to sit for and pass the PTCB Examination.

Course Materials

Provided Materials (digital)

Worksheets and Answer Keys, Flashcards, Reference Guides, Diagrams, & lesson-specific Presentations

Required Materials

A computer with internet access and the ability to download files. (Adobe PDF Documents)
